DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03 May 2004 has been entered.

Election/Restrictions

2. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 13-23, directed to the species of a grating implementation are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 33-43, directed to the species of a waveguide type selection element remain withdrawn from consideration since they do not all depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. This application is in condition for allowance except for the presence of claim 33-43 to species non-elected without traverse. Accordingly, claims 33-43 are to be cancelled.

Claim Objections

4. Claims 1, 27 and 30 are objected to because of the following informalities: In the next to last line in each of the claims, the phrase "gain spectrum another of the plurality" should state, "gain spectrum of said another of the plurality". Appropriate correction is required.

Allowable Subject Matter

5. Claims 1-32 and 44-46 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter: Prior art fails to teach, suggest or disclose, alone or in combination a semiconductor module with all the stated elements wherein an optical wavelength range of an overall gain spectrum of said multiple-quantum-well active layer comprises a gain spectrum of said one of the plurality of quantum-well sub-layers and a gain spectrum of said another of the plurality of quantum-well sub-layers, said gain spectrum of said one of the plurality of quantum-well sub-layers being different from said gain spectrum of

Art Unit: 2828

said another of the plurality of quantum-well sub-layers, and both said gain spectrum of said one of the plurality of quantum-well sub-layers and said gain spectrum of said another of the plurality of quantum-well sub-layers contributing to the optical wavelength range of said overall gain spectrum.

Conclusion

7. This application is in condition for allowance except for the following formal matters:

The correction of the objection to the independent claims 1, 27 and 30;
and the cancellation of the withdrawn non-elected claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
